

FINANCIAL REPORT

Several capital donations – among them a larger bequest – made it possible for us to raise our capital by 80 % in the previous year. That is an important step towards securing the future of the Award. The foundation's capital is invested in accordance with ecological and social criteria and in low risk assets.

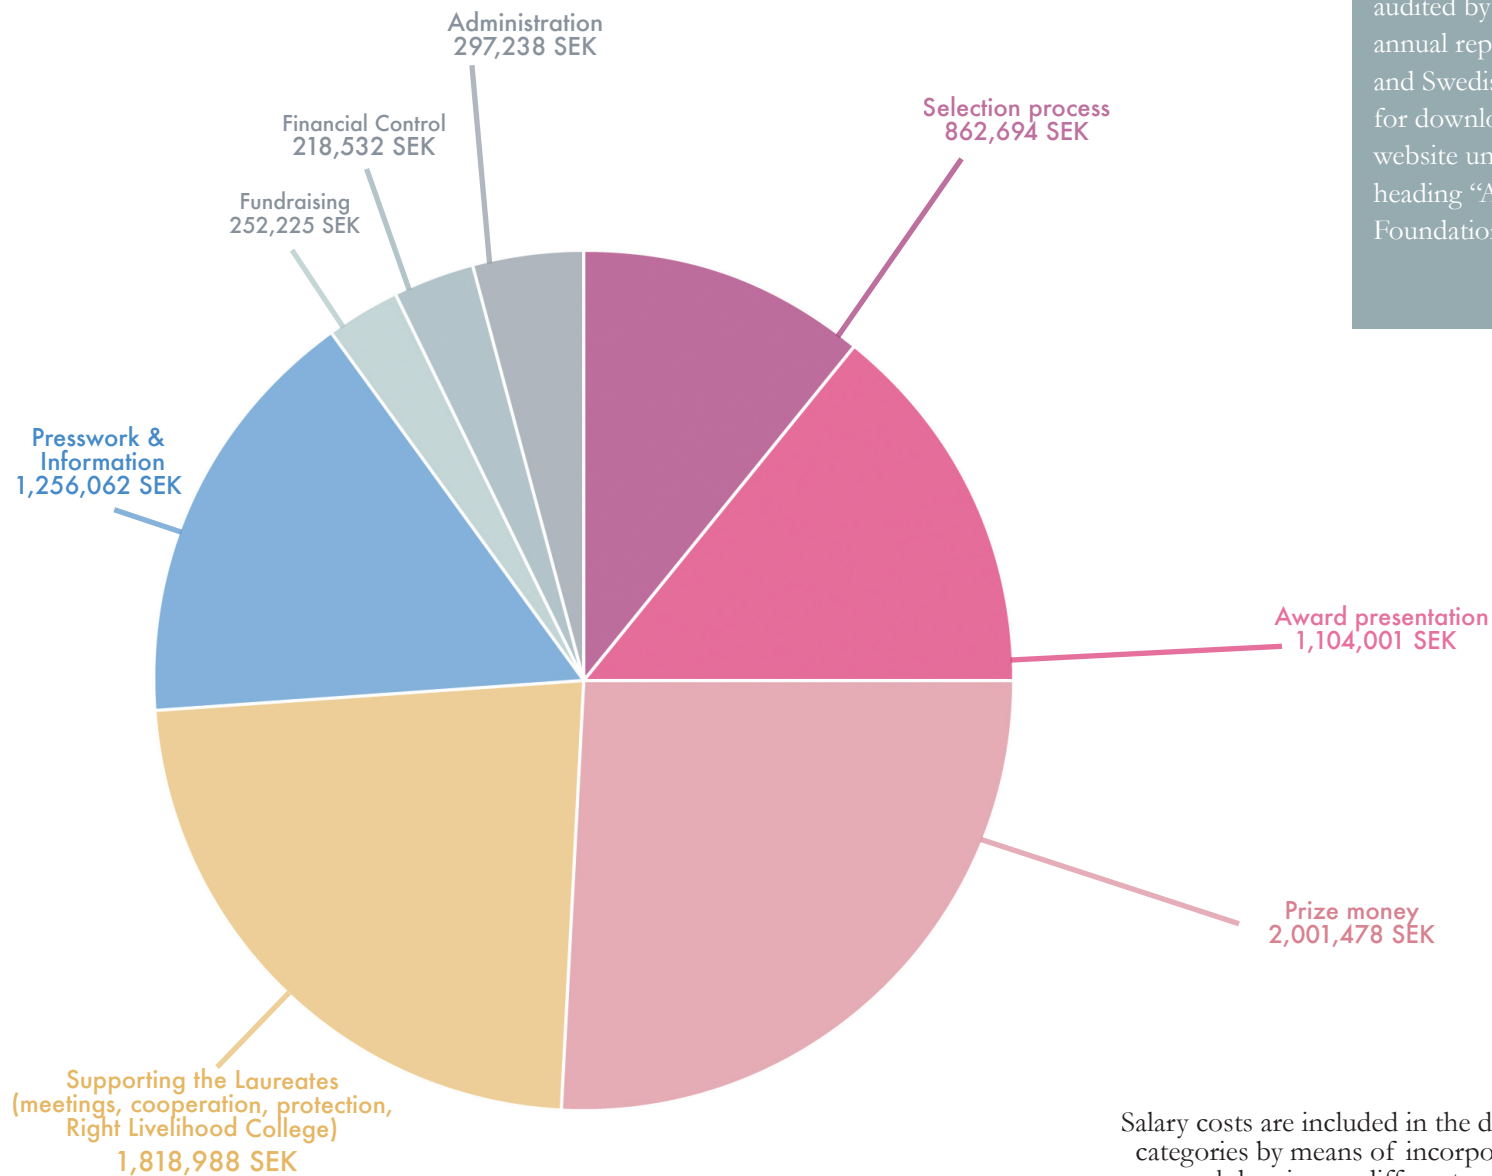

The figures presented here include our German support fund "GLS Treuband Förderfonds" and the donations forwarded to us by our Swiss support foundation, but not the costs of the Swiss foundation, which are presented in its own annual report.

Total expenditure in 2013	7,811,218 SEK

Expenditure 2013

The financial figures are audited by Deloitte. Our annual report (in English and Swedish) is available for download on our website under the heading "About the Foundation".

Salary costs are included in the diagramme's different categories by means of incorporating all employees' workdays in our different projects. Every project belongs under one category, like e.g. the time-intensive preparations for the award week in December.
